

The Fabulous Fabric Glide™

Set of two sizes of semi-hoops to control your fabrics during free-motion quilting. Grasp gently with both hands while the bottom surface rests lightly on the fabric. Retains the desired fabric positioning in all directions, while preventing bunching. Relaxed hand positioning reduces the usual hand and wrist and shoulder fatigue. The textured bottom surface grips thick fabric layers securely, with minimal effort. New squared shape allows larger areas to be quilted before needing to reposition.
